

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

1. (Cancelled)
2. (Currently Amended) The method of claim + 22, wherein the remote portable device is a personal digital assistant (PDA).
3. (Cancelled)
4. (Currently Amended) The method as in claim 2 22, further comprising:
displaying, at the PDA and upon request of the user, the information items in the transmitted information shopping cart.
5. (Cancelled)
6. (Currently Amended) The method as in claim 2 22, further comprising:
receiving a file name from the user to name the information shopping cart;
transmitting the file name with the information shopping cart to the PDA; and
displaying the file name at the PDA.
7. (Currently Amended) The method as in claim 2 22, wherein transmitting the information shopping cart to a PDA further comprises:
converting the information shopping cart at the website to a file format selected by the user.
8. (Currently Amended) The method as in claim 2 22, wherein the website is a directory website, and wherein the information items are directory listings.
9. (Original) The method as in claim 8, further comprising:

selecting additional information associated with one or more of the directory listings to accompany the directory listings when the information items are transmitted from the website to the PDA.

10. (Original) The method as in claim 9, wherein the directory listings include a business name, and wherein the additional information comprises one or more of driving directions, maps, advertisements, menus, coupons and a list of items for sale at the business.

11. (Original) The method as in claim 10, further comprising:
automatically placing branding information in the information shopping cart with the information items, so that the branding information is displayed at the PDA with the information items.

12. (Original) The method as in claim 11, wherein the branding information identifies the operator of the directory website.

13-21. (Cancelled)

22. (New) A method for providing information items to a user at a remote portable device, wherein the user has a computer separate from the portable device but capable of communicating with the portable device, the method comprising:

accessing the information items at a website, including providing the computer with a browser for navigating the Internet in order to use the website, using the computer to search a database at the website for a set of information items based on a search request from the user, and displaying information items from the website on the computer;

placing the information items in an information shopping cart at the website in response to selection of the information items by the user; and

transmitting the information shopping cart having the selected information items from the website to the portable device.

23. (New) A method for providing information items to a user at a remote portable device, wherein the portable device has a communications link to a separate computer, the method comprising:

accessing the information items at a website, including providing the computer with a browser for navigating the Internet in order to use the website, using the computer to search a database at the website for a set of information items based on a search request from the user, and displaying information items from the website on the computer, wherein the website provides yellow pages directory listings, and the information items are part of those listings;

placing the information items in an information shopping cart at the website in response to selection of the information items by the user; and

transmitting the information shopping cart having the selected information items from the website to the portable device.
